Message from Managing Partner

We have consistently supported our clients as they have grown – by growing ourselves – and as a larger firm, we are proud of the increased presence we have at the Singapore Bar. It was a conscious decision on our part to grow the Firm with the right kind of people – people who are not just bright legal minds but those who put a premium on honesty, teamwork, compassion and integrity.

I can say with utmost confidence that my team and I will help you with anything you are concerned with. We will make your problem ours, and therefore we will not offer cookie cutter solutions; we will look at each problem and offer tailor-made solutions to each matter.

The Firm's India Desk provides clients with a seamless approach to corporate transactions and dispute resolution in India, the ASEAN region, and internationally. We serve both clients based in India as well as international clients doing business with Indian entities. Working alongside leading law firms in Malaysia, Indonesia, Vietnam, Thailand, Sri Lanka and Europe, we aim to serve our Indian clients in their corporate matters and cross-border disputes.

Lawyers at the firm's India Desk have an understanding of the languages, cultures and practices that affect the conduct of transactions across India. This allows us to deliver seamless solutions for corporate transactions and dispute resolution. Our lawyers are proficient in the following Indian languages: Hindi, Punjabi, Tamil, Bengali, Urdu and Gujarati.

Dispute Resolution

Litigation, Arbitration & Mediation

We design pragmatic and cost-effective dispute resolution roadmaps to achieve the best outcome for every situation and budget.

Civil, Commercial and Criminal Litigation

We proactively guide, assist, and advise our clients throughout their legal journey. We begin this process by putting together a dispute roadmap for our clients where we identify potential hurdles and focus on the legal issues within a case that need close attention.

White Collar Crime

As needed we either represent the interests of corporate clients who find their organizations victims of fraud, or of individuals accused of white collar crimes such as criminal breach of trust.

International Arbitration

Our firm has represented clients in a range of arbitration proceedings, including contract disputes, M&A disputes, and complex, international, multi-million dollar matters. We have served clients from a range of sectors including finance, commerce, construction, international sales, investment, transport, trade and insurable interests. We can serve as either counsel or arbitrator.

Mediation

We have skilled and accredited mediators on our team with experience in handling contentious matters and where possible we have helped numerous clients reach successful resolutions through mediation.

Banking & Insurance

Banking

Tito Isaac & Co regularly acts on behalf of banks and financial institutions in the areas of banking law, insolvency and debt-restructuring. We assist creditors in an array of services including the institution of formal insolvency procedures, the commencement of bankruptcy proceedings, the enforcement of judgements as well as the commencement of winding up applications.

In our effort to provide the best legal solution, we help our clients to work out a suitable and practical roadmap while identifying potential pitfalls and the areas that need close attention.

Insurance

The firm is highly experienced in helping both insurance companies and the insured. Our primary task is to expedite the legal process and support clients in securing the best result. Tito Isaac & Co is a one-stop solution for all your insurance needs. We act for a few major insurers. Our team handle their motor insurance claims, personal injury claims, and workmen compensation claims.

We also give advice on professional indemnity, directors, and officer insurance matters. Our lawyers represent honest private workshops and seldom come into conflict with insurance companies. The firm relies on our own list of experts and investigators and produce outstanding results for both individuals and corporate clients.

Our scope of insurance work also includes settlements for aviation companies, acting for bond insurers, and acting for individuals who allegedly breached policy conditions.

Finance & Payments

Governance & Compliance

For businesses in finance or payments-related sectors whose operations are governed by the Monetary Authority of Singapore (or other equivalent Central Bank entities regulating a country or jurisdiction), compliance and licensing are foundational to entry and expansion. In addition to legal advice and strategic advice, we will assist with applications needed for obtaining Major Payment Licences and the relevant approvals.

Regional and Global Growth

Businesses planning to expand into South-East Asia (or ASEAN) may be faced with a number of regulatory and logistical challenges peculiar to each jurisdiction. Tito Isaac & Co has the expertise, experience and contacts within ASEAN to assist our clients in realizing these goals.

Expanding into ASEAN

ASEAN is the Association of South-East Asian Nations. The ten nations of Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, The Philippines, Singapore, Thailand and Vietnam are members of ASEAN and form a loose political and economic union which, among other goals, facilitates economic integration among its member states and the countries of the Asia-Pacific.

Corporate & Commercial Lawyers

Tito Isaac & Co's Corporate & Commercial Practice has a comprehensive understanding of the region and a network of local and regional contacts to turn plans into reality. We blend legal, business and strategic advice into real world problem solving. Beyond our home base of Singapore, we assist in connecting our clients with legal professionals, financial professionals and the relevant specialists throughout ASEAN.

Tito Isaac & Co: Legal Professional of Choice

Tito Isaac & Co endeavours to be the legal professional of choice for corporate and business expansions into Singapore and the ASEAN region. Our professional experience has included providing legal advice to Singapore's electronic payment switch, e-Nets, as well as various payment processors, fintech software developers and e-commerce merchants.

Privacy, Tech & IP

Developments in technology create new paradigms for business and society and the law is at times unable to keep pace with these changes. Our aim is to help our clients navigate this evolving world and protect their interests.

Privacy & Cyber Security

Growing concerns over the collection and misuse of personal data has led governments around the world to enact new laws to regulate and manage the tech-related conflicts of interest impacting their citizens, their local businesses, their own governmental structures and their national interests. Our team will assist clients in meeting the prevailing regulatory requirements in that jurisdiction.

Fintech & E-Commerce

It is crucial that Fintech and E-Commerce businesses meet all the legal and regulatory requirements of jurisdictions under which they operate. This may include laws relating to banking, anti-money laundering and cyber-security. We have served various payment processors, aggregators, fintech software development companies and e-commerce merchants.

Defamation & Libel

Another similar concern is with regulating the publication of information and audio-visual materials. There are issues of ownership, copyright, reproduction, dissemination, defamation, libel, threats, misrepresentation and abuse.

Intellectual Property & Patents

Copyright and patents are increasingly important in protecting your intellectual property and the brand value of your business. Our lawyers advise clients on IP issues and conduct the required filing process.
